PHYSICS AND TECHNOLOGY OF AMORPHOUS-CRYSTALLINE HETEROSTRUCTURE SILICON SOLAR CELLS

Book Condition: New. Publisher/Verlag: Springer, Berlin | Today's solar cell multi-GW market is dominated by crystalline silicon (c-Si) wafer technology, however new cell concepts are entering the market. One very promising solar cell design to answer these needs is the silicon hetero-junction solar cell, of which the emitter and back surface field are basically produced by a low temperature growth of ultra-thin layers of amorphous silicon. In this design, amorphous silicon (a-Si:H) constitutes both "emitter" and "base-contact/back surface field" on...

Reviews

This composed book is wonderful. It is really basic but excitement from the fifty percent of the ebook. You wont really feel monotony at at any moment of your own time (that's what catalogues are for regarding if you request me).

-- **Summer Quigley Jr.**

It is fantastic and great. It is actually rally exciting throgh reading period. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Alva Reichert**
